This is the **rocket**
that flew to **Mars**.

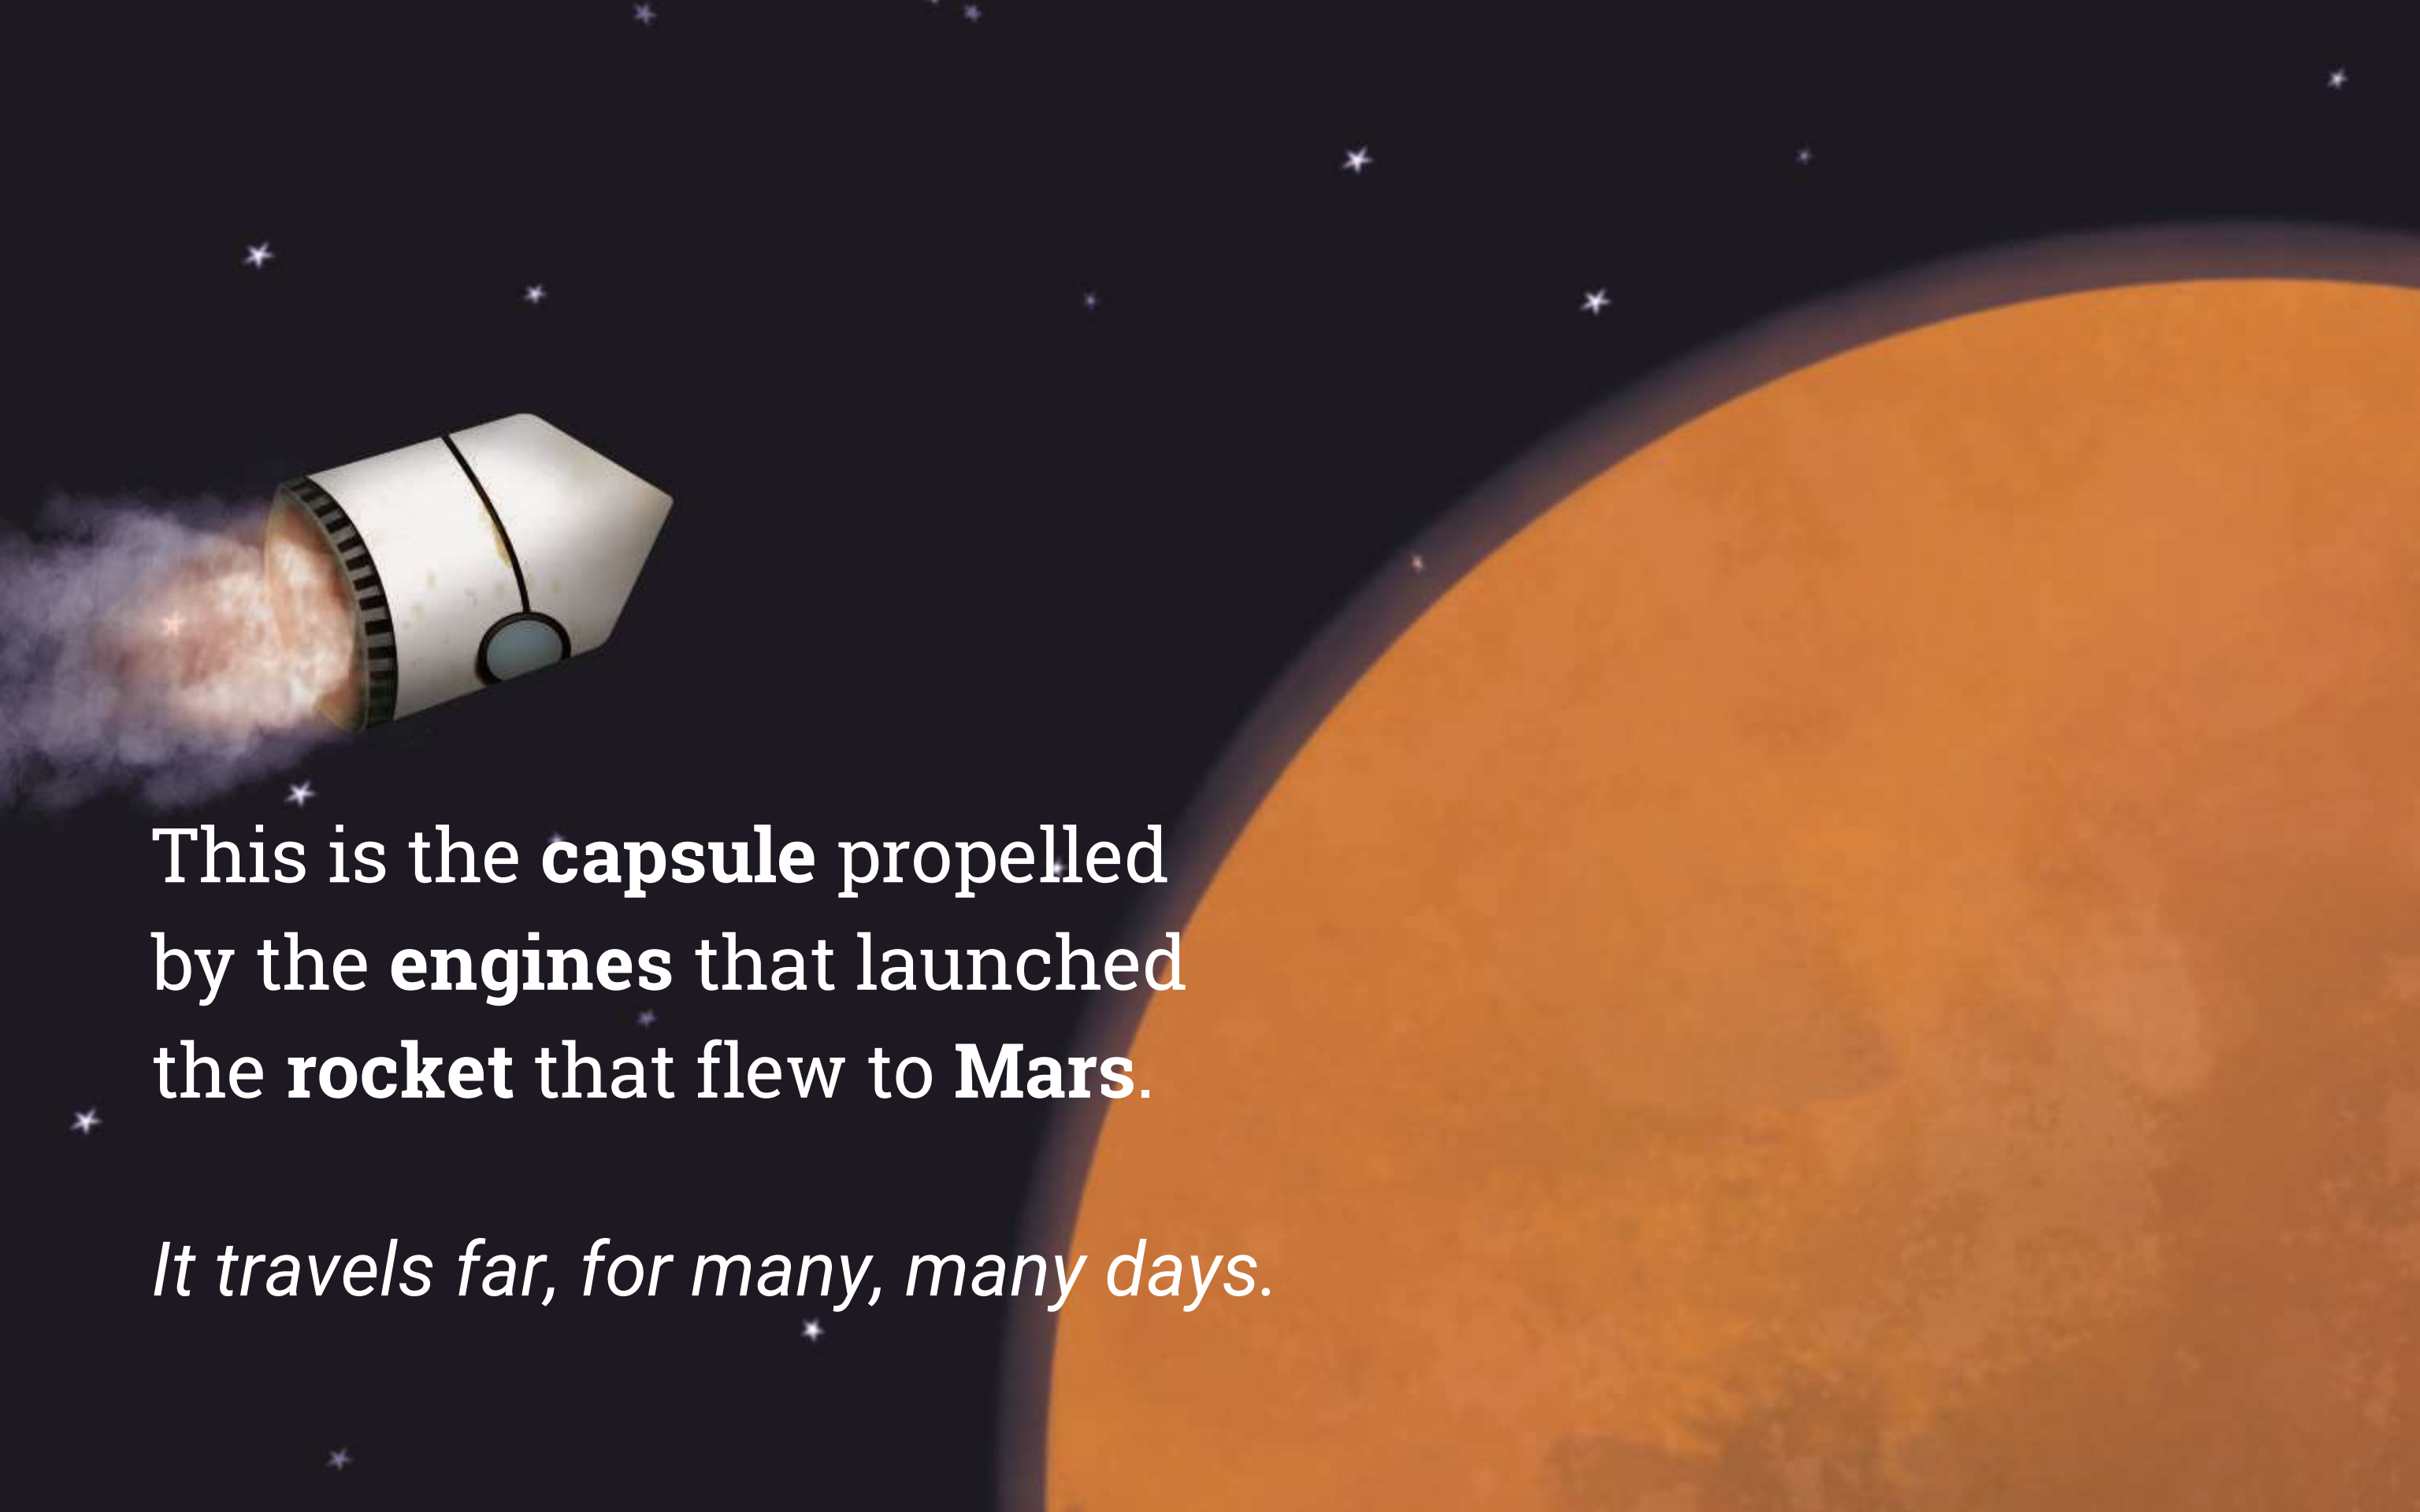

Whoosh! It's off!

These are the first-stage **engines**
that launched the **rocket**
that flew to **Mars**.

*Their job is done now, and
the rocket leaves them behind.*

This is the **capsule** propelled
by the **engines** that launched
the **rocket** that flew to **Mars**.

It travels far, for many, many days.
