RELAXING
FLOWERS
COLORING BOOK
FOR ADULTS

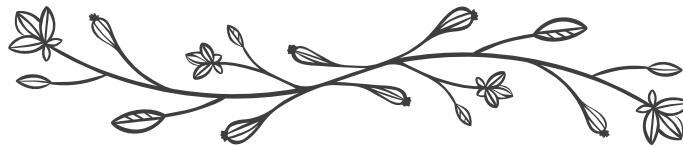

Thank You for Choosing Mia Bliss!

We appreciate your choice of our low-content coloring books and are thrilled to have you as a part of the Mia Bliss community.

Copyright © Mia Bliss. All rights reserved.

We want to assure you that each of our designs has been carefully created with love and dedication. This book features black pages as a security measure to prevent color bleed-through and to enhance your coloring experience.

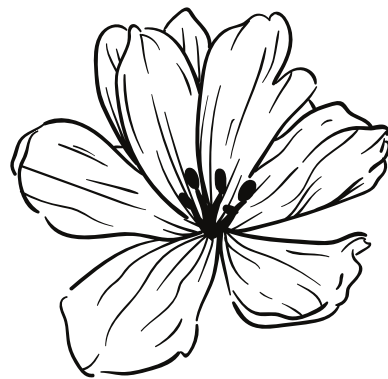

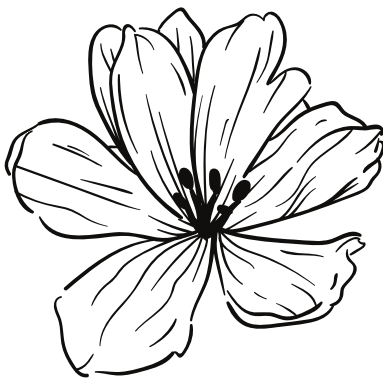

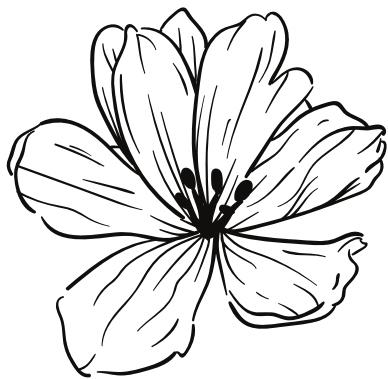

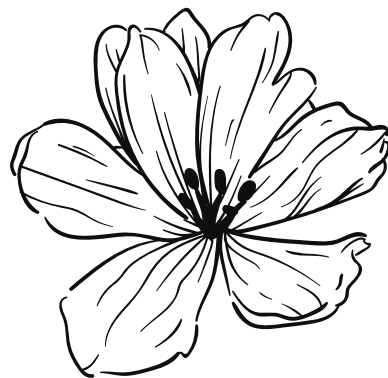

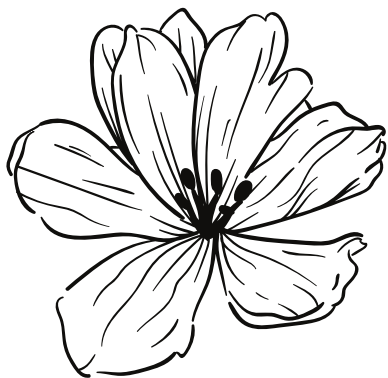

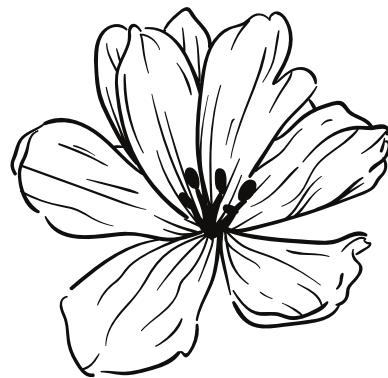

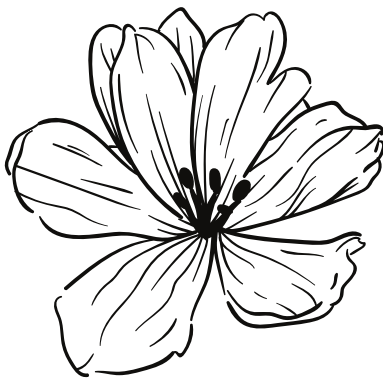

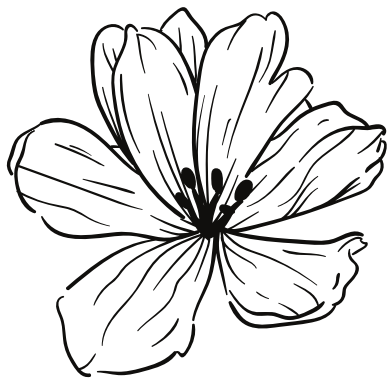

Special Recommendation ♥

Although our pages are designed to provide the best coloring experience, we recommend using colored pencils or fine-tip markers instead of broad markers to avoid ink bleeding. If you'd like to add an extra layer of security, you can **place a blank page behind the drawing you're coloring**. This will allow you to fully enjoy your creative process, as the paper we use on Amazon, while of high quality, may not be specifically designed for coloring.

Thank you for being a part of the Mia Bliss community! We hope you enjoy hours of relaxation and creativity with our books!
